

# Building Blocks for Innovation.

Connecting your Legal Practice with customized IT solutions.

## CONSULT. DEPLOY. SUPPORT.

There's a lot of talk about the cloud today. Benefits like virtualization, scalability, elasticity and low capex are tempting businesses into making the move into a cloud hosting solution, along with improvements in cloud technology and security. Companies that once limited their cloud activities to dev/testing are embracing the cloud for an increasing number of mission-critical applications. Whether you're just dipping your toes in the water or ready for a full-blown cloud hosting environment, Aurora Cloud Technologies offers a variety of Cloud Hosting and IT Consulting options to suit your business needs.

### HYBRID CLOUD SOLUTIONS

Our solution allows you to integrate multiple platforms – public cloud, private cloud, managed server, and on premise servers – to combine the strengths of both physical and virtual environments for improved flexibility, scalability and security.

### CLOUD APPLICATION HOSTING

Ideal for businesses looking to migrate resource-intensive applications such as CRMs, high-traffic websites, or collaboration software to the cloud. All of our solutions come with support at no additional cost.

### VDI (Virtual Desktop Infrastructure)

Centralized control over application and user permissions. Moving your office to desktop hosting with the cloud eliminates IT headaches and guarantees up-time while significantly reducing your IT budget.

### IT CONSULTING

With Aurora Cloud Technologies, you immediately have access to an expert team. We take away the need to employ and train expensive resources and deal with turnover of IT staff. We work closely with you to problem solve by identifying the issues for you.
